PROFESSIONAL PROFILE

Practical web development, technical support and digital operations professional with experience supporting small businesses, users and customer-facing systems. Background includes WordPress delivery, website maintenance, Microsoft 365, troubleshooting, SEO, analytics, digital marketing and day-to-day business operations. Recently designing and shipping privacy-conscious workflow applications through AI-assisted development, with hands-on responsibility for requirements, testing, deployment and ongoing improvement.

CORE CAPABILITIES

Web: WordPress, HTML, CSS, JavaScript, PHP, WooCommerce, Shopify

Digital: Google Analytics, Search Console, Google Ads, SEO, Tag Manager

Delivery: Git/GitHub, Vercel, DNS, hosting, migrations, testing

Support: Microsoft 365, Windows/macOS, hardware, email, networking

Operations: Documentation, inventory, customer service, supplier liaison

Current learning: AI-assisted development, Next.js/React workflows, databases

PROFESSIONAL EXPERIENCE

Technical Support & Digital Operations Consultant

Jun 2024 — Present

HL Tech Solutions · Self-employed · Melbourne

- Provide website, Microsoft 365, email, hosting and general technical support for small-business clients.
- Complete website updates, migrations, DNS changes, maintenance and troubleshooting across digital platforms.
- Coordinate client requests, explain technical issues clearly and deliver remote or onsite support.
- Design and test AI-assisted workflow applications based on real operational needs.

Web Developer & Marketing Coordinator

Apr 2023 — May 2024

Aorta Australia · Melbourne

- Managed WordPress websites, landing pages, content updates and ongoing optimisation.
- Supported SEO, Google Ads, analytics, Search Console and social media activities.
- Provided website and digital-system support to staff and coordinated external suppliers.

Web Developer

Jul 2022 — Apr 2023

ROI Growth Agency · Melbourne

- Built and maintained client WordPress websites and supported HTML, CSS, JavaScript and PHP updates.
- Completed testing, performance improvements, technical SEO work and client training.
- Collaborated with designers, developers and clients to deliver work on schedule.

Dental Laboratory Technician

Feb 2022 — Jul 2022

Aorta Australia · Melbourne

- Supported precise digital production workflows, quality control, documentation and equipment troubleshooting.

PROFESSIONAL EXPERIENCE CONTINUED

IT Specialist / Operations Support

Apr 2017 — Feb 2022

Honour International Trading Pty Ltd (HIT Dental & Medical Supplies) · Melbourne

- Supported desktops, printers, Microsoft 365, networking equipment and business systems.
- Handled customer accounts, enquiries, orders, invoicing, payments and accurate business records.
- Coordinated purchasing, suppliers, inventory, stock control, receiving and dispatch.
- Maintained e-commerce content, product listings, online orders and digital campaigns.
- Resolved operational, technical and customer-service issues in a fast-paced small business.

Android Developer

Jan 2016 — Dec 2016

PixelForce Systems · Adelaide

- Assisted with Android application development, testing, troubleshooting and maintenance.
- Worked with project stakeholders and developers to deliver features and usability improvements.

SELECTED PRODUCT WORK

LifeHub Private, installable home base connecting six independently deployed workflow applications while keeping their data and access controls separate.	CoCare Calendar-first family scheduling system with structured change requests, permissions and auditable history.
RemindFlow Life-administration tool for bills, subscriptions, appointments and follow-up reminders.	HomeStock & ApplyTrackr Inventory visibility and job-application tracking tools designed around practical everyday workflows.

Development approach: These products were created through AI-assisted / vibe coding. My contribution centres on problem definition, workflow and interface decisions, data-safety requirements, testing, deployment and iteration. Full case studies and synthetic screenshots are available at www.haydenlin.com.au/projects.
